

“ With our mobile lube trailer, we’re able to carry a lot more fluids, reduce the time an oil change takes, more accurately measure product and reduce the risk of spills. It’s made a big impact on our business. ”

— Steve Berner, Owner, Rabern Rentals

SPECIFICATIONS

THE SAGE ADVANTAGE

In 1993, Gary Sage designed a system to help him finish equipment oil changes without spills. Rather than rely on traditional pump technology, he used vacuum pressure to add and remove oil from equipment. We’ve been building on that legacy — and helping maintenance pros get more done — ever since.

FASTER

A Sage Oil Vac system speeds up regular maintenance tasks. Our pump-free equipment is up to 50% faster than the competition.

SAFER

Enclosed, no-pump systems aren’t vented to the atmosphere, which protects operators and the environment.

CLEANER

Sealed tanks and pump-free exchanges introduce fewer contaminants into fresh fluids — and help prevent spills.

MORE RELIABLE

Sage Oil Vac systems are designed for minimal maintenance issues and a lower overall cost of ownership.

*Calculations provided by Sage Oil Vac are approximate and will vary based on several operational factors, including, but not limited to, the system utilized, oil temperature, and the expertise of the personnel involved in completing the service. Due to these variables, actual results will differ from the estimated calculation. Users are advised to consider these potential variations when interpreting the provided estimate. Sage Oil Vac is not responsible for matching these times upon equipment purchase.

FASTER SAFER CLEANER

LUBE TRAILERS

6220 Jobsite Trailer

THE NUMBERS DON'T LIE

When we say you'll save time on the job, we mean it. Sage Oil Vac systems are pump-free, which means they're up to 50% faster than competitor options. Our exclusive pump-free technology uses compressed air and vacuum pressure to move maintenance fluids to and from tanks — all with fewer spills.

CUT PM TIME IN HALF

	SAGE OIL VAC	PUMP SYSTEM
Bulk fill: new oil, 10 gal (37.9 L)	50 sec	2 min, 30 sec
Evac: engine oil, 5 gal (18.9 L)	1 min, 15 sec	2 min, 30 sec
Fill: engine oil, 5 gal (18.9 L)	1 min	1 min, 25 sec
Total Time	3 min, 5 sec*	6 min, 25 sec

MAXIMIZE PRODUCTIVITY WITH LUBE TRAILERS

PREVENTIVE MAINTENANCE (PM) TRAILERS

With room to carry up to 370 gallons (1,400.6 L) of fresh fluids and 250 gallons (946.35 L) of used fluids, our PM trailers have everything you need for oil changes on stationary diesel equipment. Select trailers have two fresh fluid tanks, giving you the option to top off antifreeze or hydraulic fluid in the field.

2250E PM LUBE TRAILER

- Enclosed trailer
- (1) 250-gal (946.35-L) used oil tank
- (1) 250-gal (946.35-L) fresh oil and fluid tank
- (1) 50-ft (15.24-m) used fluid hose
- (1) 50-ft (15.24-m) fresh fluid hose
- **Optional:** Heated capabilities

2250 PM TRAILER

- (1) 250-gal (946.35-L) used oil tank
- (1) 250-gal (946.35-L) fresh oil and fluid tank
- (1) 50-ft (15.24-m) used fluid hose
- (1) 50-ft (15.24-m) fresh fluid hose

3250 PM TRAILER

- (1) 250-gal (946.35-L) used oil tank
- (1) 250-gal (946.35-L) fresh oil and fluid tank
- (1) 120-gal (454.25-L) fresh oil and fluid tank
- (1) 50-ft (15.24-m) used fluid hose
- (2) 50-ft (15.24-m) fresh fluid hoses

380 PM TRAILER

- (1) 80-gal (302.83-L) used oil tank
- (1) 80-gal (302.83-L) fresh oil and fluid tank
- (1) 60-gal (227.13-L) fresh oil and fluid tank
- (1) 50-ft (15.24-m) used fluid hose
- (2) 50-ft (15.24-m) fresh fluid hoses

Ready to take preventive maintenance on the road? Here's what makes Sage Oil Vac lube trailers a good fit for so many crews.

- **Techs get more done without frequent refills**, with fresh fluid capacities up to 700 gallons (2,649.79 L).
- **Flexibility comes standard** when you can move your PM equipment between service vehicles.
- **Getting to the jobsite is simple** with no CDL requirements to expand your labor pool.
- **Maintenance tasks are up to 50% faster** thanks to exclusive Sage Oil Vac pump-free technology.

JOBSITE TRAILERS

Designed for larger equipment fleets, our jobsite trailers feature fresh fluid capacities up to 700 gallons (2,649.79 L) and used fluid capacities up to 220 gallons (832.79 L). Each model meets the National Association of Trailer Manufacturers (NATM) compliance standards and all National Highway Traffic Safety Administration (NHTSA) guidelines.

5120E ENCLOSED JOBSITE TRAILER

- CellTech enclosed trailer with rear and side doors
- (1) 120-gal (454.25-L) used oil tank
- (3) 80-gal (302.83-L) fresh oil and fluid tanks
- (1) 80-gal (302.83-L) fresh coolant/antifreeze tank
- (1) 50-ft (15.24-m) used fluid hose
- (3) 50-ft (15.24-m) fresh fluid hoses
- (1) 50-ft (15.25-m) fresh coolant/antifreeze hose
- Workbench with shelving and mounted lights
- **Optional:** Heated capabilities

5120 JOBSITE TRAILER

- Enclosed reel cabinet
- (1) 120-gal (454.25-L) used oil tank
- (3) 80-gal (302.83-L) fresh oil and fluid tanks
- (1) 80-gal (302.83-L) fresh coolant/antifreeze tank
- (1) 50-ft (15.24-m) used fluid hose
- (3) 50-ft (15.24-m) fresh fluid hoses
- (1) 50-ft (15.24-m) fresh coolant/antifreeze hose

6220 JOBSITE TRAILER

- Enclosed reel cabinet
- (1) 220-gal (832.79-L) used oil tank
- (1) 220-gal (832.79-L) fresh oil and fluid tank
- (3) 120-gal (454.25-L) fresh oil and fluid tanks
- (1) 120-gal (454.25-L) fresh coolant/antifreeze tank
- (1) 50-ft (15.24-m) used fluid hose
- (4) 50-ft (15.24-m) fresh fluid hoses
- (1) 50-ft (15.24-m) fresh coolant/antifreeze hose
